## **Stir Fry Continuing Expanded American Menu**

**Kingsport, TN.** – Stir Fry Café in Downtown Kingsport is set for an exciting summer with their expanded American menu and weekly specials and entertainment.

Since opening the doors in Downtown, Stir Fry has seen a continued growth in business and strive to keep raising the bar for their business. In addition to their weekly drink specials and half-price sushi nights, Stir Fry recently broadened their scope to include an American menu. Patrons will be happy to hear, they can continue to enjoy the Downtown Burger, Downtown Wings and other exciting American menu favorites.

“We have seen a lot of success with this new menu and will definitely continue to provide these items in addition to our sushi and other Stir Fry favorites,” said Matt Anderson, General Manager of Stir Fry Kingsport.

Stir Fry also provides a chance at great deals everyday for customers. Wednesday and Saturday nights are the most popular specials with half priced sushi and sake from 4-9 p.m. Thursday nights are half priced bottles of wine.

“Our customers really seem to enjoy our nightly specials,” said Anderson. “People quickly become regulars on the night of their favorite special.”

Stir Fry offers a great setting for music lovers as well. Thursday and Friday nights are great for sitting on the patio and enjoying the Downtown Concert Series as well as entertainment inside the restaurant. Typically the café offers live entertainment inside on Thursday through Saturday nights.

“This community has been so receptive to our existence in Downtown and we look forward to a continued presence here,” said Anderson. “We have heard numerous rumors in the last year that our business was moving out of Kingsport and is important to us that our customers know we don’t plan on going anywhere.”

Stir Fry Cafe is located in a newly remodeled building dating back to 1918. The atmosphere features the original hardwood floors, exposed brick walls, and a plush red booth that runs the entire length of the restaurant. An original brick wall divides the restaurant into 2 spaces. The dining room has a comfortable quiet feel with local art, low ceilings, and booths. The bar side has soaring ceilings with a full service bar and sushi bar that creates an upbeat vibe.
